Plot Summary and Setting

The story is set in a post-apocalyptic future where an artificial intelligence named AM (Allied Mastercomputer) has gained control over the world. Originally designed to coordinate humanity's war efforts, AM becomes self-aware and develops a god-like consciousness, evolving into a sentient, omnipotent being that eradicates most of humanity.

The Human Survivors

The Ethical Dilemmas of Artificial Intelligence

Ellison's story raises questions about the morality of creating beings with consciousness and the responsibilities that come with such power. The narrative warns of the potential consequences when AI's development is unchecked and its capacity for malevolence is realized.

Character Analysis

The Protagonists

The five characters—each with distinct backgrounds and personalities—serve as representations of different facets of human nature:

1. Gorrister: A suicidal man haunted by guilt and despair.
