Below is a simplified example illustrating the typical structure and content of a navy point paper: To: Commander Jane Doe, USN From: Lt. John Smith, USN Subject: Proposal to Upgrade Communication Systems on USS Example Date: October 27, 2023 Purpose: To seek approval for the upgrade of communication systems aboard USS Example to enhance operational security and efficiency. Background: The current communication systems aboard USS Example were installed in 2010 and have become outdated, leading to interoperability issues with newer fleet assets. Recent assessments indicate that upgrading to a modern system will improve communication clarity and security. Discussion: - The existing system is compatible with legacy equipment but lacks support for newer encryption protocols. - Upgrading will require an investment of approximately \$150,000. - The upgrade will take approximately three weeks, during which the ship's communication capabilities will be temporarily limited. - Alternative options include maintaining the current system or partial upgrades, both of which have drawbacks such as security vulnerabilities or limited improvements. Options/Recommendations: 1. Proceed with full upgrade as proposed. 2. Delay upgrade for six months and reassess. 3. Maintain current system with increased security patches. Recommended: Option 1, to

ensure operational security and future readiness. Conclusion: Upgrading the communication system aligns with fleet modernization goals and enhances operational security. The investment is justified by long-term benefits. Action: Approval is requested to proceed with the upgrade plan. Budget allocation and scheduling should be authorized by November 5, 2023. Purpose

To recommend updates to the USS Enterprise's communications security protocols to address recent vulnerabilities identified during operational assessments.

Background

Recent audits of USS Enterprise's communication systems revealed vulnerabilities to interception and jamming, potentially compromising mission confidentiality. These issues emerged after implementing the current protocols six months ago. The Navy's Cybersecurity Office has issued new guidelines

emphasizing stronger encryption and adaptive frequency hopping.

Issue

The existing communications security protocols are insufficient against emerging electronic warfare threats, risking interception of sensitive information and operational compromise.

Analysis
