documented history with speculative theories.

Transition to Conspiracy Writing

After retiring from intelligence work, Coleman dedicated himself to research and writing about hidden influences in global affairs. His works, notably "The Conspirator's Hierarchy: The Story of the Committee of 300," depict a shadowy elite manipulating world events for their own benefit. His writings are characterized by detailed historical references, insider claims, and a narrative suggesting pervasive, secret control.

The Origins and Composition of The Committee of 300

What is The Committee of 300?

According to Coleman, The Committee of 300 is a clandestine organization comprised of the world's most powerful and influential individuals—royalty, aristocrats, bankers, industrialists, and political leaders—who operate behind the scenes to guide global affairs. The name allegedly derives from the number of core members or the number of seats in a secret council.

Historical Roots and Evolution

Coleman traces the origins of the Committee back centuries, suggesting it evolved from older secret societies such as the Illuminati, Freemasons, and other clandestine groups. Over time, it supposedly consolidated influence, creating a centralized power structure that extends into the highest echelons of society.

Membership and Structure

While no official list exists, Coleman claims that the Committee is organized hierarchically, with a small inner circle wielding the most power. The group allegedly operates through layers of front organizations, think tanks, and covert agencies to manipulate political, economic, and social systems worldwide.

Functions and Goals of the Committee of 300

Global Control and Influence

The primary goal attributed to the Committee is global domination—controlling governments, economies, media, and cultural institutions to shape world events in their favor. Coleman suggests that crises such as wars, economic crashes, and social upheavals are orchestrated or exploited by the committee to advance their agenda.

Economic Manipulation

The Committee is said to influence banking systems, stock markets, and international trade to consolidate wealth and power. Coleman points to historical financial crises and the creation of

debt-based economies as evidence of this manipulation.

Population Control and Social Engineering

Another controversial claim is that the Committee seeks to reduce global population and promote social engineering through media, education, and health policies. This includes promoting vaccines, environmental programs, or other initiatives that purportedly serve their long-term interests.

Technological and Cultural Domination

The group allegedly promotes technological advancements and cultural shifts to establish a one-world government and eliminate national sovereignty. Coleman discusses the role of organizations like the United Nations and global corporations as tools for this agenda.
