What Is Self Sabotaging Behavior in Relationships?

Self sabotaging behavior in relationships refers to actions, thoughts, or patterns that consciously or unconsciously undermine one's own relationship goals. These behaviors often stem from deep-seated fears, insecurities, or past experiences that influence current interactions. They can manifest in various ways, from communication issues to avoidance tactics, ultimately preventing the development of trust, intimacy, and mutual respect.

Common Types of Self Sabotage in Romantic Relationships

Understanding the specific behaviors that constitute self sabotage can help individuals recognize their own patterns and work towards healthier interactions.

Anxieties about being alone or not being enough can trigger behaviors that push partners away.
